(54) Title: PAINT REMOVAL SYSTEM FOR ARTIFICIAL GRASS

(57) Abstract: A method and device are provided for removing painted field markings from a synthetic grass surface including at least a sheet backing and a plurality of synthetic grass fibers extending upward therefrom. The method comprises the steps of applying a paint-dissolving solvent to a region of the synthetic grass surface having the painted field markings thereon, brushing the region using at least one rotating brush to abrade paint coated on the synthetic grass fibers, and spraying the region with pressurized water.
